**CHOICE WIRELESS, LC**  
**TTY STATUS REPORT, JULY 15, 2004**

Choice Wireless, LC ("Choice Wireless" or "Company") filed a Petition for Waiver of the TTY requirements on June 21, 2002.<sup>1</sup> The Amended Petition addressed the status of the Company's efforts to comply with the TTY requirements and requested an extension of the deadline until the Company is able to obtain the necessary financing to allow it to implement a TTY solution in the most efficient and expeditious manner.

The Company reports that it has procured financing for its proposed switch replacement,<sup>2</sup> and that it has, for the first time since inception, experienced a month of positive cash flow. Although its financial position has improved, significant expenditures are still required to meet TTY obligations. As noted previously, the Airnet site equipment still requires significant upgrade to be TTY compliant,<sup>3</sup> and the Company continues to experience significant fiscal impediments, which would make implementing these upgrades a substantial financial burden.<sup>4</sup> The Company still struggles with a cash flow that is insufficient to fund both the cost of the switch replacement as well as the requisite upgrades to bring the Company into compliance with TTY obligations. The Company reports that it continues its efforts to raise funds through the sale of certain assets.

The Company reports that its July billings (to be mailed in August) will again contain the bill insert used in January 2004 to inform subscribers of the system's TTY limitations, and will continue to provide such notifications on a semi-annual basis until the Company has become TTY compliant. Choice Wireless continues to train its employees regarding how to explain the delay to potential new customers who use TTY devices.<sup>5</sup> Choice reports that it has had no request for TTY services.

Respectfully submitted,

Alan Rohmer  
Chief Financial Officer
